

At Substation33 we re-cycle and re-use electronic waste, including computers, that would otherwise end up in landfill or be left to sit in your shed or corporate store room. Unfortunately, up to 80% of students in Logan may not have access to a computer at home. Substation33 provides computers to these students and their families and we are committed to bridging the digital divide in Logan and beyond.

If you need a computer for the family we have a variety of desktop computers to suit your requirements. Our computers come with everything you need to plug in and get working within a few minutes
- monitor, keyboard, mouse, wifi dongle and all cables.

Priced from \$100

If you need a laptop computer for a student we have a variety of laptops to suit student requirements.

Priced from \$150

All of our computers come with:

- Google Chrome
- Windows 10
- Microsoft Office (students with an Education Qld or TAFE student email address will have free access to this)
- Libre Office (a free alternative to Microsoft Office)

SUBSTATION33 is committed to

BRIDGING THE DIGITAL DIVIDE

in Logan and beyond.

We pride ourselves on tailoring our solutions to meet your needs and requirements.
If you have any questions about our products, please contact
